Rainbow Division Leads in Subscriptions Made for Victory Notes.

New York securities buyers, or to be more exact, New Yorkers with a little surplus cash and steady incomes, who are not afraid to lend some of the surplus to Uncle Sam at good interest rates, came to the front yesterday and boosted the Victory Loan total for the city almost 100 per cent.

Subscriptions recorded for the entire city yesterday exceeded \$29,000,000. When the totals are compiled the figure will probably exceed \$30,000,000, and it is almost double the figure of the previous twenty-four hours. The figures are still far behind what they ought to be for the four days of the drive, but all told are the most encouraging recorded to date.

Up to 4 o'clock P. M. yesterday the city had recorded 10.3 per cent. of its prescribed quota. This represented a total of \$103,799,200 officially recorded. Unofficial subscriptions would add nearly \$6,000,000 to this figure.

There is no reason for self-congratulation, however, in these figures. The period of the loan drive is almost a third spent and a big spurt must be made if the district is to meet requirements in the matter of subscriptions.

On the basis of available returns New York city is considerably ahead of the rest of the New York district—the Second Federal Reserve District—comprising all of New York State, northern New Jersey and part of Connecticut. The proportion of the quota achieved outside of New York city yesterday was only 6.8 per cent. Including New York's figures this made only 9.2 per cent of the district's quota.

Brooklyn Ahead of Manhattan.

Locally the Borough of Brooklyn topped the list yesterday with 17.4 per cent. of its quota. Manhattan did a little better than 10 per cent. Of the sub-districts up-State Bingham leads with 14.5 per cent. of its quota, while the figures available last night showed that Buffalo and adjoining communities had recorded slightly more than 3 per cent. of the amount expected.

Put in round numbers the district's subscriptions to date are \$100,000,000 behind expectations. The estimates for three days for the entire district called for \$225,000,000. The total recorded yesterday was only \$124,104,750. The three days' total anticipated for New York city was fixed at \$148,750,000. The total recorded was \$103,799,200.

The official figures announced yesterday were:

Figures issued last night from loan headquarters gave the best indication to date of the progress of the drive in the New York district. As already stated these show that New York city is more than holding its own in comparison with the up-State districts. The total lead outside of New York city is only a little more than a third of what was expected for the three days. For the city it falls a little short of twenty-four hours.

These figures indicate the drives program by boroughs and sub-districts, the latter in the order already named in the table of subscriptions show:

TWO TERMS AT HARVARD.

University to Resume Pre-War System Next Fall.

CAMBRIDGE, Mass., April 24.—Harvard University will resume next fall its former schedule of two terms a year, abandoning the present three term system, which was adopted as a war time measure.

This announcement, made to-day, said that courses of instruction, classified as full and half courses according to their value in the fulfillment of the requirements for a degree, would be substituted for one-third, two-thirds and one-sixth courses, thus placing the instruction on the same basis as in previous years, with virtually all the many professors who have been detached for war service at their desks.

Pan-American Meeting in June.
